---

Hi Kurt, that's a good compromise. A Preliminary Final will be fine.

Thanks, Pat

Pat,

I should be finished with revisions by COB. Question - what organization will be issuing the report and will it have a citable report number? If we issue it we will have to have it cleared here and an ANL report number assigned. I don't wish to hold up delivery of the report for your immediate needs. If we are to issue it, could I send it as a preliminary final, which would then go through clearance while you are able to see it in the meantime?

Please let me know how you would like to proceed. Bob is on vacation until after July 4.

Thanks,

Kurt

Hi Everyone,

The BRAC Environmental Director will be traveling to Yorktown for a visit with RASO next week. He plans to discuss our paper. Please give him as much time as possible to review it. Thanks, Pat
